Quality, innovation and choice

www.intersurgical.com

In emergency medicine, you need equipment that's easy, rapid and reliable to use. The i-gel O_2 Resus Pack contains everything you need to prepare, insert and secure the i-gel O_2 quickly and efficiently: an i-gel O_2 supraglottic airway, a sachet of lubricant and an airway support strap.

The i-gel O_2 incorporates a supplementary oxygen port and an integral hook ring for securing of the airway support strap.

The i-gel O_2 has been designed to facilitate ventilation as part of standard resuscitation protocols, such as those designated by the European Resuscitation Council (ERC) and the American Heart Association (AHA). However, the i-gel O_2 incorporates a supplementary oxygen port, so that it can also be used for the delivery of passive oxygenation, or Passive Airway Management (PAM™), as part of an appropriate CardioCerebral Resuscitation (CCR) protocol.

Airway innovation since 2007

i-gel is the innovative second generation supraglottic airway device from Intersurgical launched in 2007. The first major development since the laryngeal mask airway, the i-gel changed the face of airway management and is now widely used in anesthesia and resuscitation around the world.

The non-inflating cuff

The i-gel gets its name from the innovative soft, gel-like material from which it is made. It is the innovative application of this material that has enabled the development of a unique non-inflating cuff. This means there is no need for cuff deflation prior to insertion and no cuff inflation after placement in order to secure a seal, which shortens and simplifies the preparation and insertion procedure.

Insertion

The i-gel O_2 is incredibly easy to use. Insertion is rapid and can normally be achieved in less than 5 seconds, by a proficient user. The simplicity of i-gel O_2 means the insertion technique is instinctive, reliable and does not require or benefit from the insertion of fingers or thumbs into the patient's mouth.

Fixation

The i-gel O_2 Resus Pack includes a specially designed airway support strap for securing the i-gel O_2 in position. Fixation is easily achieved by sliding the strap under the patient's neck and securing it in place with the hook ring on the collar of the i-gel O_2. This makes it ideal for use where adhesive tape is unsuitable, such as on patients with facial hair.

Video available at us.intersurgical.com

i-gel O_2 Resus Pack

15mm connector
Reliable connection to any standard catheter mount or connection

Proximal end of gastric channel

Color coded hook ring
To secure the i-gel O_2 in position with the airway support strap

Clearly displayed product information
For quick easy reference. Includes confirmation of size and weight guidance

Position guide
(adult sizes only)

Supplementary oxygen port
For the administration of passive oxygenation as a component of cardiocerebral resuscitation (CCR)

Gastric channel
Enhances patient safety by providing a mechanism for the management of regurgitant fluid

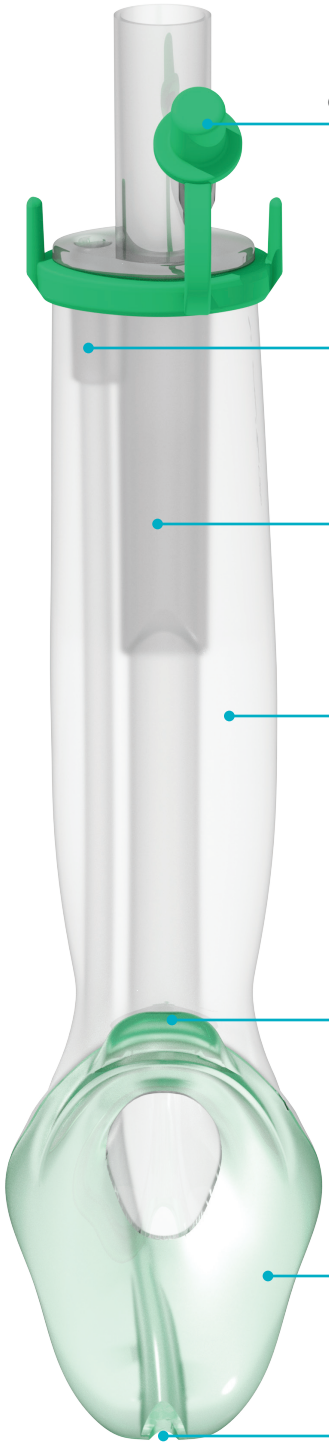
Integral bite block
Reduces the possibility of airway channel occlusion

Buccal cavity stabilizer
Aids insertion and eliminates the potential for rotation

Epiglottic rest
Reduces the possibility of epiglottis 'down folding' and airway obstruction

Non-inflating cuff
Eliminates the need for cuff inflation after insertion, allowing easy and rapid insertion

Distal end of gastric channel



The i-gel O_2 Resus Pack is available in 3 adult sizes and includes:

- i-gel O_2 supraglottic airway
- Sachet of lubricant – for quick and easy lubrication of the i-gel O_2 prior to insertion
- Airway support strap – to secure the i-gel O_2 in position

Ordering information

The i-gel O_2 Resus Pack contains an i-gel O_2, with an easily removable inner tray, containing a sachet of lubricant and an airway support strap all packaged in a specially designed clear, sterile, rigid pack. This unique design ensures protection of the contents, both in transit and in storage. The i-gel O_2 has a color coded hook ring to allow quick and easy identification of size. The i-gel O_2 Resus Pack is available in three adult sizes.

Code	Description	Weight	Box Qty.	
8705030	i-gel O_2 Resus Pack, large adult – includes a size 5 i-gel O_2 with orange hook ring, sachet of lubricant and airway support strap	90+kg (200+lbs)	6	S
8704030	i-gel O_2 Resus Pack, medium adult – includes a size 4 i-gel O_2 with green hook ring, sachet of lubricant and airway support strap	50–90kg (110–200lbs)	6	S
8703030	i-gel O_2 Resus Pack, small adult – includes a size 3 i-gel O_2 with yellow hook ring, sachet of lubricant and airway support strap	30–60kg (65–130lbs)	6	S
